

# Hong Kong Baptist University Turkey Scholarship Scheme

## Terms and Conditions

### Preamble

Hong Kong Baptist University (HKBU) is one of the eight public universities in Hong Kong, aspiring to become a leading liberal arts university in Asia for the world. Our policies and practices in teaching and learning, as well as research activities are on par with the highest international standards.

We welcome students and teachers of all religions, races, creeds, and languages. We embrace diversity and cherish pluralism. Our Christian heritage and the Christian connotation of our University's name, in modern days, have by and large translated into our caring culture towards our students and commitment to the community.

### Objective

To provide more opportunities for talented students from Turkey to undertake four-year undergraduate studies at HKBU in Hong Kong – the super-connector to Asia and Mainland China and also a key participant in Asia's and Mainland China's tremendous growth opportunities.

### Terms

The scholarship is tenable for our four-year full-time undergraduate studies in any programme (except Chinese Medicine which takes five years of full-time study plus one year of internship leading to a double degree). The scholarship covers the full tuition fees of HK\$140,000 a year for four years, totaling HK\$560,000 in value.

The scholarship is awarded annually and is subject to renew at the end of each academic year. Renewal of the scholarship is conditional upon attainment of an annual average GPA of 3.0 or above in the preceding year of study.

There are no other strings attached to the scholarship, and recipients are under no obligations to complete any period of employment in Hong Kong upon graduation. But under the current Immigration Ordinance, overseas students can choose to continue to stay in Hong Kong upon graduation to look for suitable career opportunities. And once they become fully employed in Hong Kong, they can continue to stay in Hong Kong subject to the usual conditions of stay.

### Other Expenses

The scholarship does not cover accommodation and living expenses, which are estimated to cost around HK\$70,000 a year.

We are aware that quite many Hong Kong commercial enterprises are doing business with or in Turkey; and many businesses from Turkey are also operating in Hong Kong. **We would be delighted to meet with these enterprises to explore opportunities for these companies to offer scholarships that cover the living expenses.** We shall be grateful if the Turkish Consulate would help refer us to them.

## **Benefits of Studying at HKBU**

Turkey is a great nation with many talented students. Turkish students will find HKBU a most caring and welcoming learning environment for reaping the best of what the East and the West have to offer. Hong Kong has always been a springboard to the vast opportunities in Asia and Mainland China. A university education here in Hong Kong is a ticket to these opportunities.

HKBU puts Best Student Learning Experience as our first strategic priority. Our campus is very dynamic and culturally diversified. Students have a rich array of learning experiences both within and outside the campus. Your students will benefit immensely from their study at our University - academically, culturally, and socially.

Scholarship recipients can start their study in the academic year commencing in September 2022.
